Profile

I'm a front-end developer with around two years of professional experience in designing and implementing user interfaces. I've worked with modern technologies such as React, Next.js, and TypeScript, and I actively use **AI tools** to assist with development and streamline workflows. At 20 years old, I value staying up-to-date and consider continuous learning an essential part of my career path.

Skills

- JavaScript
- TypeScript
- NextJS
- React
- Git

Projects

FastFood ⬀   04/2025 − 05/2025

This is the latest project I worked on, and it brings together everything I've learned so far. For more details, you can refer to the project's README file.

Digikala ⬀

A full responsive page of Digikala whit pure JS and tailwind

Dastresi ⬀
