Summary

Front-end developer with 1 year of professional experience building responsive, pixel-perfect web interfaces using **React, Next.js, and TypeScript**. Experienced in translating **Figma** designs into scalable UI and collaborating cross-functionally with backend and design teams to ship production features. Passionate about music, reading books and articles, and playing football.

Professional Experience

Junior Front-End Developer | [Vidans](#)

Aug 2025 – Now

Talent-to-employment platform: assessment, roadmaps, training, and placement.

- Developed **pixel-perfect** UI implementations from **Figma**, ensuring layout accuracy, spacing consistency, and responsive behavior.
- Gained hands-on experience building **multi-role management** flows (role-based access and UI behavior) across different user types.
- Implemented and maintained **entity progress tracking** patterns for multiple business objects, including:
 - Progress states, step-based flows, completion logic, and status-driven UI rendering
 - Progress components adaptable to different entities and scenarios
- Collaborated closely with **backend developers** and **designers** to align API contracts, UX expectations, and delivery timelines.
- Strengthened team workflow skills including task breakdown, syncs, feedback loops, and coordinating changes across frontend/back-end/design.

Front-End Intern | [Vidans](#)

May 2025 – Aug 2025

Talent-to-employment platform: assessment, roadmaps, training, and placement.

- Completed structured training in **HTML/CSS/JavaScript** fundamentals and applied them through frequent hands-on mini projects.
- Learned React and Next.js during the internship and built multiple small apps to practice:
 - Component-based UI development and reusable patterns
 - State management basics, routing, and page composition in Next.js
 - Responsive layouts and clean UI implementation
- Built and delivered the final internship project: [Taksized.com](#)
 - Implemented a responsive, production-ready website using **Next.js**
 - Developed modular UI sections/components for maintainability and scalability
- Used **Git** for version control and followed iterative development.

Key Skills

Languages:	TypeScript , JavaScript (ES6+) , HTML5 , CSS3
Frameworks/Libraries:	React , Next.js , Redux , Zustand , React Query , Supabase , Firebase
UI Systems:	Tailwind CSS , Material UI (MUI) , Ant Design (antd) , shadcn
Integration & Practices:	REST API integration , responsive/mobile-first UI , cross-browser considerations
Tooling:	Git , pnpm , npm , Vite
Soft Skills:	Cross-functional collaboration (with designers & backend) , clear communication, teamwork , ownership & accountability , Time management , feedback-driven iteration agile & scrum

Projects

Portfolio https://github.com/amirrrreza1/Portfolio	Oct 2025
Fast Food https://github.com/amirrrreza1/FastFood-BurgerMaker	Jun 2025
Dastresi https://github.com/amirrrreza1/Dastresi	Jun 2025

Education

B.Sc. Software Engineering Islamic Azad University, North Branch	Sep 2023 - now
